**UAO RESERVATION SYSTEM**

Information about the partner:

What are the partners wants and needs:

**WHO:**

- Who will be the primary users of the System?

- Who will need administrative access to approve or modify bookings?

- Who are the key decision-makers regarding system implementation?

**WHAT:**

- What are the problems with the current system?

- What data or information will the system manage?

- What functionalities/features do you expect from the new system?

- What are your main objectives for this system?

**WHY:**

- Why is there a need for a new system?

- Why do you think an automated system is better than the manual process?

**WHEN:**

- When do you expect the new system will be finished

- When do you want users to start testing the system?

- When do you want to see the initial version or prototype of the system?

**HOW:**

- How should users authenticate or log in to the system?

- How involved do you want to be in the development process ( regular feedback, testing, approvals)?

- How do users interact with the current system or process, what difficulties do they face?

**Wants:** N/A

**Needs:** N/A
